Objective

Motivated, self-taught frontend developer passionate about building meaningful, user-centered digital experiences. I specialize in crafting responsive web interfaces using HTML, CSS, and JavaScript, and I'm expanding my backend expertise with Node.js, Python (Django), and SQL.

Education

UNISA – Higher Certificate in Mathematics and Statistics (In Progress)

- Developing a strong foundation in analytical thinking and data-driven problem solving
- Applying statistical and mathematical logic to real-world software and algorithm design
- Using probability, regression, and data visualization tools for better technical insights

Power Learn Project (PLP Academy) – Full Stack Web Development (2024)

Core Technologies: HTML, CSS, JavaScript, Node.js (Express), Python (Django)

- Built and deployed full-stack web applications integrating both frontend and backend logic
- Collaborated on open-source-style projects emphasizing clean architecture and teamwork

Technical & Core Skills

- Frontend: HTML5, CSS3, JavaScript (ES6+), Responsive Web Design
- Backend: Node.js (Express), Python (Django), RESTful APIs
- Database: MySQL, PostgreSQL, SQLite
- Tools & Platforms: Git, GitHub, Netlify, Render, Postman
- Other: MVC Architecture, CRUD Operations, Authentication, Payment Integration (Paystack)

CORE SKILLS

- Problem-Solving & Logical Thinking
- Critical Thinking & Attention to Detail
- Time Management & Self-Motivation
- Team Collaboration & Communication
- Continuous Learning & Adaptability

Experience/Project

Ref Placer – Smart Referee Allocation Tool

(<https://ref-placer.onrender.com/>)

A full-stack web application designed to streamline referee assignment for sports tournaments.

- Tech Stack: HTML, CSS, JavaScript, Node.js (Express), MySQL
- Built authentication system with secure access and role-based dashboards
- Developed a smart referee allocation algorithm avoiding double-bookings
- Integrated a \\$/month Paystack subscription system
- Includes historical data tracking and a searchable rating system

Personal Developer Portfolio

(<https://amazing-figolla-c1df64.netlify.app/>)

Tech Stack: HTML, CSS, JavaScript

- Designed and developed a mobile-first personal website
- Showcases live projects, skills, and personal background
- Focus on clean UI/UX design and responsive layout
